# [Typo] "Monsters" is written wrong on the title

Description:

When it enter on the application, it is possible to see the first page of the application. The title of the application is there and it is wrong. The name of the application should be "Battle of *Monsters*" and not "Battle of *Monters*".

Figma printscreen:

Application printscreen:

Steps to reproduce

1. Enter on Battle of Monsters application

2. On the first screen, it is possible to see the title of the application and "Monsters" is written wrong.
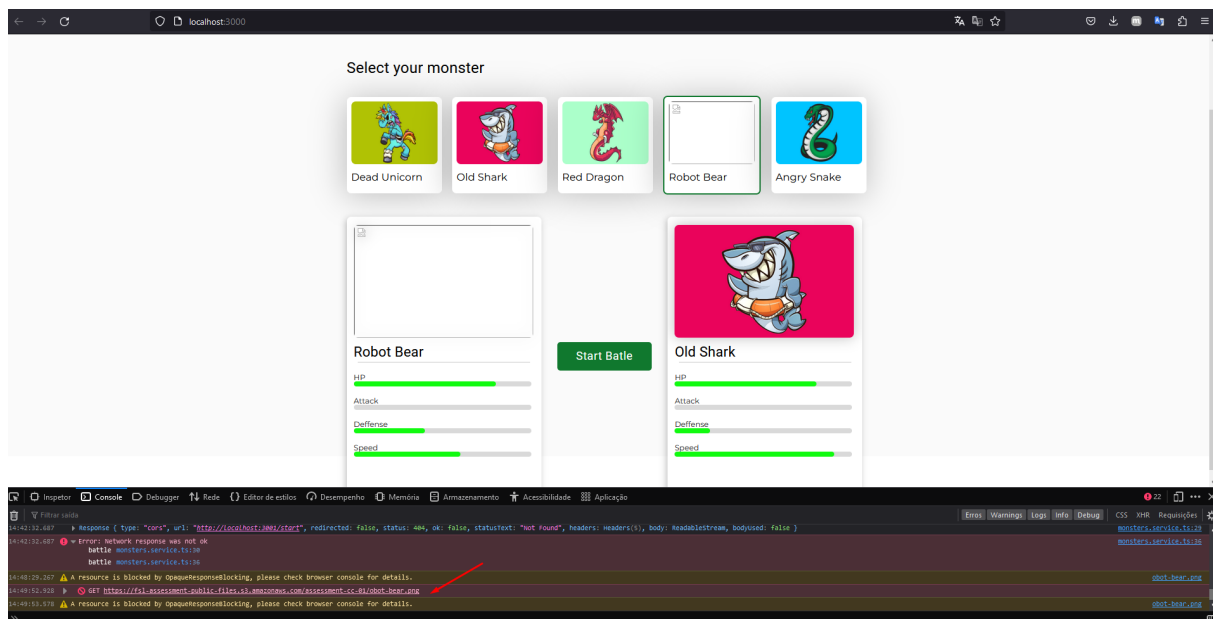

Expected behaviour

Following the figma mockup, the title of the application should be "Battle of Monsters" and not "Battle of Monters".

Environment

localhost

Plus:

It seems that is a problem on s3 AWS, because of this the photo is not loading.
